

“Wonderful World After Death”

Author:- Shree Nand Kishore Sharda

(Shree Nand Kishore Sharda Gyan Ganga Mission)

The “**Shree Nand Kishore Sharda Gyan Ganga Mission**” was founded by Kumari Basanti Manihar and Kumari Madhubala Advani, sisters and followers of Shree Nand Kishore Sharda, with the objective of unfolding the secrets of divinity and cosmos based on modern science and logic.

Sharda ji was a brilliant student of science. At the age of 15, when he lost his father, he was moved deeply by the transience of life. He was at a loss to know whether the body lying on the ground was his father or what had deserted the body was his father. Around the same time, while reading about Lord Ramakrishna Paramhansa and Swami Vivekanand, he was struck by the fact that when they could have the divine vision of **Goddess Kali**, then why couldn't an ordinary person have her vision. Therefore, in order to know the truth, he decided to live an ascetic life. He dedicated his entire life onto the lotus feet of the Divine Mother ‘**Tripursundari**’ and obtained her grace. He lived a life full of meditation and ‘sadhna’ with complete devotion and selfless love for more than forty years. The divine knowledge obtained by him has been unfolded in the book “**Wonderful World After Death**”.

The divine ambrosial knowledge in this book is the result of love, affection and blessings of divine Mother ‘**Tripursundari**’. His last words were that this sacred river of knowledge should flow to the masses. His wish is now being carried out by ‘**Shree Nand Kishore Sharda Gyan Ganga Mission**’.

This book is not related to any religion or sect. It is the divine knowledge of eternal truth. It helps us to lead a life full of happiness, peace and bliss.

Even though man remains engrossed in the dazzles of materialism, still the following questions echoing in the minds of seekers of truth, happiness, bliss and eternal peace, have been answered in this book: -

When death is the ultimate truth then why do we take birth? What is the goal of our life?

- 1) Why do we observe difference between the activities of a newborn child of a human and an animal? Do animals also have rational thinking and intellect as a human being? If no, then where do these come from into a human being?
- 2) Is there life after death? If yes, where do we go after death? Do we have rebirth?
- 3) What is the role of destiny in our lives? Can we alter our fate? Is man free to choose his deeds?

- 4) After death, what do we leave behind and what goes with us?
- 5) After death, how are we rewarded and punished for our deeds? How is our destiny built?
- 6) How can we have divine vision of God and where are the divine abodes situated?
- 7) Do you know how did the universe come into existence?
- 8) Where are the stars, the moon, the sun, and even we, situated in the universe?

The author, on the inspiration of the divine Mother, established the **Swami Vivekanand Students Welfare Charitable Trust** in 1996. He envisioned the form of Divine Mother in each girl. Hence, the **Trust** is fully dedicated to the education of needy girls in schools and colleges without any discrimination of religion and caste. During his lifetime, the **Trust** distributed over 56 lacs rupees amongst girl students. Through the trust, he distributed 75,000 books on the life history and messages of saints, distributed furniture in schools and constructed drinking water huts, classrooms, etc. whose expenditure was borne by him and his associates.

He also made efforts to inspire the Central and State Government Authorities to improve the basic infrastructure facilities in various government schools viz. bathrooms, classrooms, halls, boundaries, computer rooms, etc. amounting to approximately 15 million rupees. The Government of Rajasthan conferred consecutively five times the most coveted "**Bhamashah**" award to the **Trust** during 1999 to 2003. This trust has a very special feature of **Zero Expenditure budget**, setting a unique precedent for others to emulate.
